Our goals

To improve:

- Relevance of search results
- Retrieval speed
- Appearance to end user

Our approach

Relevance

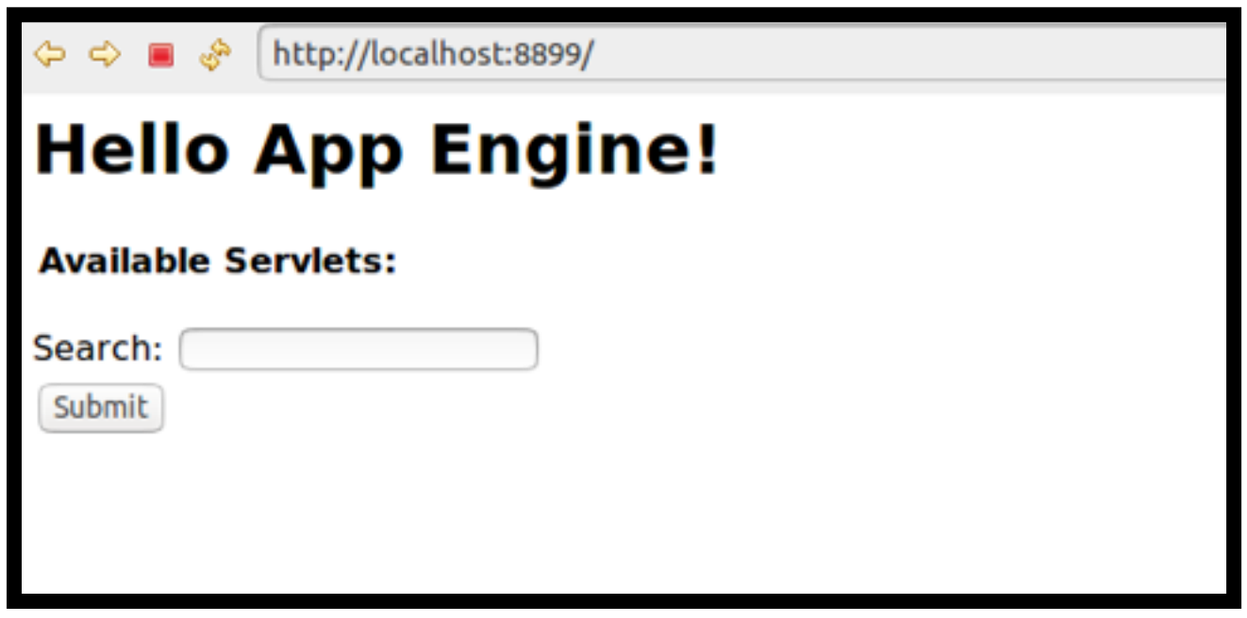
- stemming words, TFIDF, cosine similarity

Speed

- remove stop words

Appearance

- Jave Server Pages, CSS



Challenges

- Getting our environments set up
  - Connecting backend to front end
- Limited space for indexing
- Time

In conclusion…

From March to August

We learned a lot and made friends

Thank you all so much!
